The Most Trusted Name in Electronics

Peaks and Valleys - Great for Cable TV

Peaks and valleys in the terrain usually indicate a need for a CATV system. In the uniformity of a CATV cable, they indicate the need for better cable.

Times Alumifoam® (the trade name for our seamless aluminum tube sheathed coaxial cable) flattens out the topography in your return-loss sweep generator with a calm uniformity that's making believers out of everyone in the CATV business. We can guarantee a 30 db worst point for this cable and back it to the hilt. That means first-quality cable every time, and smooth functioning

Terrible in a CATV Cable

transmission right from the start. No costly ship-backs. No costly re-installation. There are fewer splices, fewer trouble points, less maintenance and less labor costs with Alumifoam because it's made in continuous seamless lengths up to ½ mile. Because it's seamless, it's waterproof and vapor-proof. And Alumifoam's long life is a real bonus—continuous high-performance quality for years and years. Be sure of the cable in your Cable TV. an award we wish we hadn't won

Ever seen what a tornado can do to a town? We did. On April 21st, the worst twister in Illinois history ripped through several communities outside Chicago. And we reported it. With movie cameras in color. With helicopters. With reporters wired for sound.

Now, they say our coverage was the best spot television news reporting of the year. Who are *they*? The Radio Television News Directors Association.

Sure, we're glad to have our work commended by our fellow professionals. But we can't forget the tragedy we witnessed. And we wish none of it had ever happened.

But if you report news, like WGN Television does, you're there when it happens and you tell it like it is. Even if it hurts.

DISTINCTIVELY DETROIT

MEADOW BROOK MUSIC FESTIVAL. *Held on the beautiful campus of Oakland University and featuring the Detroit Symphony Orchestra with renowned guest soloists such as Van Cliburn, Meadow Brook is acknowledged as one of the most noteworthy musical events in the United States.*

Just as Detroiters regard this highly acclaimed concert series as distinctive of the metropolitan area, so they have regarded The WWJ Stations as distinctively Detroit for over 47 years. Why? Because of programming that reflects the city's own interest in local news, sports, entertainment, public affairs and community service. And, because of WWJ's home-ownership by The Detroit News. When you ask a Detroiters which radio and TV stations are distinctively Detroit, he'll instinctively tell you "WWJ."

Can programming Designed for Milwaukee find happiness in some other city ?

Can a bird dog fly?
Same difference. Our
programming
is designed
exclusively for
Milwaukee!
Take our
women's

programming for instance.
The hostesses are area per-
sonalities who know what
Milwaukee women like. And
their ratings prove it. Or
try our sportscasting. More

Milwaukee men watch our
champion sportscast team

than any competing
station. Or
look at our
adventure
series. It's
hosted by a
local boy who
made good. Now

his weekly arm-
chair safaris
reach more
Milwaukee
adults
than

all competing programs
combined! We could go on.
We
could
talk
about
our top-
rated
news,

weather
forecasting,
1967
Peabody
Award,

and how
our well-
rounded
programming —
Designed for Milwaukee —
reaches more area homes per
week than any other station.* For the complete story
on WTMJ-TV, contact our
representatives: Harrington,
Righter & Parsons in New
York, Chicago, San Fran-
cisco, Atlanta, Boston, St.
Louis and Los Angeles.

TV Allocations, State, City

Note: UHF and VHF TV allocations have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies. The offset indicators are not shown for UHF assignments, which were the subject of a rulemaking adopted June 4, 1965. The designators were to be added in a later order, but had not been published by time the Yearbook went to press. Meanwhile, the appropriate designators are shown on construction permits and licenses issued for UHF stations.

Asterisks (*) indicate channels reserved for noncommercial use.
